If you enjoyed this, support the manga & buy the book because the art really looks prettier on paper than on your computer.

If you need info on how & where to buy manga, you can ask your questions in our forum.

We don't own the copyrights of the manga we're scanning. This is something made by fans for fans due to the lack of EL manga imported & published outside Japan, but we do own the scans of each of our projects & the translations, since they were made by our team or that we were given permission to use them.

That's why, if you want to use any of these, read the FAQ first, then ask permission to us.

We won't tolerate any piracy or image hoarding. Only the teams affiliated to EoP (listed on the website) get the right to use our translations, because they accepted to follow our policy & to give credit to the people who worked very hard to make them.

If you use this scanline work used as exchange material, and if you get retranslations (anyway or other stuff) or used in other websites without giving credits, please, report immediately to us by a mail.

Thank you & HAPPY READING :D
